HOW TO CHANGE AUTHENTICATION FACTOR TO EMAIL

To change the SMS verification, click the drop-down arrow next to SMS and select Email Authentication. The system will default to email authentication in the future.

A user interface for selecting an authentication factor. At the top, there is a circular button with a blue speech bubble containing the text "SMS" and a small white square with a downward-pointing arrow. Below this is a white rectangular menu with a thin border. The menu has a header "Select an authentication factor" and two options: "SMS Authentication" with a blue speech bubble icon, and "Email Authentication" with a blue envelope icon. Below the menu are two empty rectangular input fields. At the bottom of the form is a large blue button with the text "Verify" in white.
